The Map and Data Library (MDL) provides access to data and statistics. Many of the most important data and statistics sources are included on the MDL homepage.

Statistics Canada provides most of the data on education for Canada. Click on Data Tables in the left hand menu to locate Statistics Canada data. The Map and Data Library also provides links to Data Tables via Statistics Canada. Data Tables are considered Statistics Canada’s socioeconomic database. They contain up-to-date manipulable data on education.
Chose the subject Education, training and learning under Subject on the left side of the page.
