Signing up for a Personal Account to access DynaMed

You can set up a Personal Account that allows you to use all of DynaMed's personalized features, including CME. With a Personal Account, you can sign in to DynaMed from anywhere, including the browser on your mobile device and the DynaMed mobile app for Apple and Android devices.

To set up a Personal Account:

1. Click the Sign In link in the top toolbar of the screen.
2. On the Sign In screen, click the Register Now link.
3. On the Register for a Personal Account screen, enter an Email Address and Password to be used as your log in credentials.

Note: When creating a password, ensure your password meets the following criteria:

- Must be at least 6 characters long
4. Complete the fields in the **Your Information** area and click **Register**.

5. After clicking **Register**, your personal account is created and you can sign in with your credentials.

6. The first time you log in, you are prompted to read the **Personal Data Retention and Usage** policy. Select the **Yes** button to consent to the collection of your personalized data and click **Continue** to finish setting up your account.

**Resetting Your Password:** If you have forgotten your password, you can use your email address to retrieve your password.

**To reset your password:**

1. From the Sign In Screen, click **Forgot password?**
2. Enter your email address and click **Continue**. You are prompted to check your email for a security code.
3. Enter the security code and set a new password.
